Stronger Together: Building Momentum Forward

February is a time to build on the momentum of the new year and strengthen the connections that shape our university community. As we continue our journey, this month reminds us of the importance of collaboration, dedication, and shared purpose in achieving our goals. By supporting one another and embracing new ideas, we create opportunities for growth, innovation, and meaningful progress. Let us reaffirm our commitment to excellence and lifelong learning as we move forward together, fostering a vibrant community and paving the way for continued success throughout 2026.

FEBRUARY'S MAIN ATTRACTION

Research Excellence with AKAT: Academic Sharing Session

The session featured YBhg Tan Sri Emeritus Professor Dr. Ghauth Jasmon, Chairman of the Board of Governors, who shared perspectives on improving research quality, analytical skills, and academic standards using the AKAT tool. Participants learned the importance of human-focused analytics, effective supervision, and research integrity, helping staff and students move forward with clarity and confidence. We appreciate all who joined the discussion and contributed thoughtful questions. Stay tuned for more knowledge-sharing sessions from Vision University College.

Professor Emeritus Dr. Hamzah A. Rahman, Chief Executive, led students in exploring how AI can support study plans, notes, and revision questions while emphasizing that AI is a study partner, not a shortcut.

Vision University College is partnering with Open University Malaysia (OUM) to support the APEL T7 pathway, helping individuals turn work experience into formal qualifications and making higher education more accessible.

Professor Ts. Dr. David Ngo Chek Ling and the KLUST delegation visited VUC to formalise a long-term academic collaboration. This partnership enables VUC to offer KLUST's accredited programmes starting April 2026, marking a key milestone for both institutions.

We were honoured to host MAIPk to discuss collaboration in developing Asnaf human capital. The delegation toured our Nursing Building and Hope Vision Clinic, exploring ways to empower Asnaf communities through education and skills training.
